

Sinclair Broadcasting's decision to make their stations air partisan documentaries days before the election is a misuse of the public airwaves.

The broadcast spectrum exists for the public good, and Sinclair uses the public airwaves free of charge. It is obligated by law to serve the public interest. It is inappropriate for spectrum that exists for the public benefit to be used in the service of transparently partisan activities.

Please do not allow Sinclair to misuse broadcast spectrum that exists for the good of all of the people, not just those in favor of a particular candidate or ideology. Thank you.
